Air travel

Airfare purchases

Air travel is not expected to occur on a regular basis and therefore all airfares should be pre-approved by an executive member and a second member of the Board prior to being booked. All airfare is expected to be booked at the most direct and economical airfare. The following guidelines should also be considered;

Guidelines

1. Employees and Board members are not permitted to select a specific carrier for travel reward benefits if another carrier is offering a lower fare.
2. Whenever feasible, employees and Board members should book air travel at least three (3) weeks in advance (and no later than seven days prior) to obtain the best available pricing and selection.
3. Where appropriate, business trips/meetings should be combined.
4. Booked fares with Air Canada should be at Flex Fare rate. Booked fares with WestJet should be at lowest cost available fare class. (Business class or above is not allowed)
5. Any cancelled tickets must be used for travel related to HDM activities within the time allocated.
6. HDM will reimburse employees and Board members for the airline fee associated with pre-booking a standard seat. Any upgrades to premium seats are a personal expense.

7. Travel of accompanying persons is a personal expense.

8. Frequent travel programs. Employees and Board members are entitled to rewards and benefits received through frequent travel programs. The selection of airfare, however, should be based on lowest available cost and service needs, not on potential benefits received.

9. Airport parking and mileage cost should be considered when it can be shown to be more economical than the cost of return taxi fare. Actual parking charges for length of stay at the airport are chargeable at cost incurred. Economy parking lots are to be used (provided security and safety makes it reasonable).

Car rentals

1. Economy, compact and mid-sized cars (including hybrids) must be reserved unless the size of the group makes this option impractical. Luxury or premium vehicle rentals are prohibited unless offered at no additional cost to the employee or Board member.

2. Car rentals are to be returned with full tanks of gas to avoid premium refuelling charges.

3. Parking tickets and traffic violations will be the responsibility of the employee/Board member and cannot be submitted for expense reimbursement.

4. A Loss Damage Waiver (LDW) should be purchased unless it is already provided by your credit card or personal automobile insurance policy.

5. Employee/Board member should do a thorough check of the vehicle for any damage before driving off the rental lot and ensure that any such damages are noted by the rental company.

Personal vehicles

1. Employees/Board members are only authorized to use their own vehicle when they have both a valid driver's license and comprehensive auto insurance. Employees/Board members are required to carry at least \$1,000,000 coverage of personal insurance and must advise insurance providers that personal vehicle will be used for business purposes.

2. Where employee/Board member are involved in an accident while using a personal vehicle for business purposes the insurance deductible is the sole responsibility of the employee/Board member.

3. All tolls and parking associated with business will be reimbursed with a receipt. In the absence of a receipt, a detailed description of incurred costs must be provided.

4. Valet parking will not be reimbursed. Any damages and/or theft to vehicles used for business purposes, along with any associated increase in premiums, are the responsibility of the driver and cannot be submitted for expense reimbursement.
5. Employees/Board members travelling by automobile should, where practical, travel together to minimize vehicle use.
6. Parking tickets and traffic violations will be the responsibility of the driver and cannot be submitted for expense reimbursement

Mileage reimbursement

1. The current mileage reimbursement rate is as set out in appendix A. This allowance represents the cost of fuel, insurance, oil, maintenance, repairs, depreciation, and other normal operating costs.
2. Commuting from your principal residence to your regular business office is not considered a reimbursable expense.
3. Trips from home to the airport are considered a reimbursable expense.

Hotel accommodations

Guidelines

1. It is the employee/Board member's responsibility to cancel room reservations within the allowable time frame (without incurring penalty).
2. Employee/Board member must obtain a cancellation number in case of discrepancy.
3. Chargeable "no shows" (includes hotel, bus, meals) will not be a reimbursable expense.
4. The standard for accommodation is a single room, in a safe environment, conveniently located and comfortably equipped. Upgraded accommodations are not an allowable expense unless provided by the hotel at no additional charge to the standard room rate.
